Daystar Token White Paper

Empowering Knowledge and Intelligence through Blockchain & AI

1. Introduction

The global economy is shifting rapidly toward digitalization. Education, artificial intelligence (AI), and blockchain technology are merging to create new opportunities. Yet, access to quality training and advanced AI tools remains limited, often gated by high costs.

Daystar Token aims to bridge this gap by creating a decentralized ecosystem where holders gain access to education, training, and AI-driven utilities powered by a community-first token economy.

2. Vision & Mission

- Vision: To become the world's leading Web3-powered knowledge and intelligence hub, where individuals learn, innovate, and thrive.

- Mission: To empower our community with education, AI tools, and financial opportunities that drive growth and adoption of blockchain technology.

3. Tokenomics

Token Name: Daystar Token

Symbol: $DST

100Billion Burnt at Launch

TAX Distribution

Buy 5%

Sell 5%

Transfer Tax 2% (Dead wallet or manually)

Liquidity 2%

Burning 1%

Reflection 1% (WKC)

Marketing 6%

Max Buy 2% of Total supply

Alocation

Team Allocation(Locked)

Ecosystem & partnership (Locked)

Total locked 20%

4. Utilities & Use Cases

1. Education & Training

- Token holders gain access to exclusive

- online courses, workshops, and masterclasses.

- Blockchain & crypto learning hubs provide certifications and skill-building programs.

- Gamified learning with rewards in tokens for completing courses.

2. AI Integration

- Use tokens to access AI-powered chatbots, trading bots, and portfolio trackers.

- AI-based content generation tools for creators, businesses, and marketers.

- Smart AI assistants for research, education, and productivity.

3. Roadmap

Phase 1

- Market research

- Community building

- Website/white paper release

- smart contract deployment/Token Launch

- White paper release & website launch

Phase 2

- Education hub prototype

- Partnerships with blockchain educators

Phase 3

- Exchange listings (DEX & CEX)

- Global marketing campaigns

- Global marketing campaigns

Phase 4

- Full launch of education ecosystem

- DAO governance model implementation

- Strategic collaborations with universities & AI platforms

6. Competitive Advantage

Unlike other tokens with limited real-world use cases, DayStar Token creates tangible value by combining:

- Knowledge (Education & Training)

- Intelligence (AI tools integration)

- Financial growth (Financial Education)

This triple-utility model ensures long-term sustainability and mass

adoption.

7. Conclusion

The future belongs to those who are equipped with knowledge and empowered by technology. Daystar Token is not just a cryptocurrency it is a gateway to Blockchain education, AI, and financial freedom.

Join us in building a smarter, stronger, and more connected digital economy.
